

# Transform Your Business With the Power of Financing

Think financing is just another way to pay for equipment and software? Join businesses across the country and tap into the real power of financing with LEAF.

**LEAF is the fastest, easiest and most flexible way to get the equipment and software your business needs to stay agile, compete and grow.**

## Why LEAF Is the Best Way to Equip Your Business

### 100% Financing

LEAF enables you to finance 100% of the equipment cost. You can also include other costs such as taxes, delivery and installation charges. Also, unlike a bank loan, there is no deposit.

### No Drain on Cash

Financing equipment and software frees up working capital for other critical needs so you won't need to tie up precious cash.

### Upgrade Equipment

Financing allows you to upgrade your equipment and software when new technology becomes available, not when it becomes obsolete.

### Preserve Credit Lines

Our financing has no effect on existing credit lines, so they remain ready whenever you need them.

### Exceptional Payment Flexibility

Financing can be tailored to the specific financial needs of your business. Payments can be structured to meet cash flow fluctuations and there are many end-of-term options to choose from. Other forms of financing are much more rigid.

### Eliminate Equipment Disposal Challenges

We will manage the disposition of your equipment at the end of the term.
